

Promoting Workplace Compliance including in Global Supply Chains: The role of Economic and Social Councils and similar social dialogue institutions”

ELEMENTS FOR THE CLOSING ADDRESS

- Hopes expressed at the opening are fulfilled: **interesting and substantial conclusions**. Better understanding of this global phenomenon.
 - Declaration offers useful ways for concrete action. Satisfaction. The **AICESIS will do its part** of the job. *[If needed, comments on the follow-up on parts of the Declaration which directly concern AICESIS' role].*
 - After appropriate contacts and consultations among members made by the General Secretariat in the light of this Declaration, **the AICESIS Board in Madrid [February 2016: exact date should be known by then]**, will discuss and decide on possible initiatives.
 - As a first follow-up: the contribution of the AICESIS at the **next International Labour Conference (ILC) in June 2016** at the ILO in Geneva, since the main subject will be precisely the same as the one of this conference.
According to the decision taken by our General Assembly last month in Moscow, this contribution - naturally based on the substance and results of this conference - will be prepared by **a working group led by the SER of The Netherlands**. Many thanks in advance.
 - **To conclude, very pleasant task: thanking.**
